"Oh, yes, I know the plaintiff very well," said a witness recently in a damage suit. "I used to visit him at his shop every day and swap lies with

"Used to?" queried the examining counsel, "what do you mean by that? "Just what I said," retorted the witmess. "I used to go there."

"Oh," said the attorney, "you don't wisit him any more? Did you have a falling out?

"Well, not exactly, I just quit going there."

"Well, Judge," said the witness, screwing himself around in the chair and facing him. "He told me once he had a brother who could jump forty feet into the air and remain up for twenty seconds."

Day of Scientific Feeding.

The search for the fountain of youth has not been abandoned, as the numerous dietary experiments abundantly attest. Science is the modern Ponce De Leon. The era of strictly scientific living for the most of us has not dawned, and is afar off, but may we not hope that the time is coming when the most casual caller at the lunch counter will order as many grams of protein, fat, carbohydrates and the cest as his physical or intellectual necessities seem to require? The man who is about to produce an epic will see to it that his bill of fare contains the requisite amount of nitrogen and phosphorus and that he secures a sufficient number of calories of hat value daily.

Heat From Firing Guns.

The heat developed by the firing of heavy guns is remarkable. During some recent trials in Germany a gun that had been fired seventy-five times melted solder placed upon it, while another was hot enough to soften lead.

DIDN'T BELIEVE

That Coffee Was the Real Trouble. Some people flounder around and take everything that's recommended to them but finally find out that coffee is the real cause of their troubles.

An Oregon man says: "For 25 years I was troubled with my stomach. I was a steady coffee drinker but didn't suspect that as the cause. I doctored with good doctors and got no help, then I took almost anything which someone else had been cured with but to no good. I was very bad last summer and could

not work at times. "On December 2, 1902, I was taken so bad the Doctor said I could not live over twenty-four hours at the most and I made all preparations to die. I could hardly eat anything, everything distressed me and I was weak and sick all over. When it that condition coffee was abandoned and I was put on Postum, the change in my feelings came quickly after the drink that was poisoning me was removed.

"The pain and sickness fell away from me and I began to get well day by day so I stuck to it until now I am well and strong again, can eat heartily with no headache, heart trouble or the awful sickness of the old coffee days. I drink all I wish of Postum without any harm and enjoy it immensely.

"This seems like a wonderfully strong story but I would refer you to the First National Bank, The Trust Banking Co., or any merchant of Grant's Pass, Ore., in regard to my standing and I will send a sworn statement of this if you wish. You can also use my name." Name given by Postum Co., Battle Creek, Mich.

Still there are many who persistently fool themselves by saying "Coffee don't hurt me," a ten days' trial of Postum in its place will tell the truth and many times save life.

"There's a reason." Look for the little book "The Road to Wellville" in each package.

letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham: —I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."—Mrs. M. E. Hughson, 347 East Ohio St., Chicago, Ill.

Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements. Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started.

The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea.

that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E.

Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. Lelah Stowell, 177 Wellington St., Kingston, Ont., writes:

"Dear Mrs. Pinkham: — You are indeed a godsend to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony.

"I suffered for years with bearing-down pains,

womb trouble, nervousness, and excruciating head-ache, but a few bottles of Lydia E. Pinkham's Vegetable Compound made life look new and promising to me. I am light and

new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health."

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the warry in the arry stage of development and checks any tendency to cancer. uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.
